Polycarbonate Mold Release

Why was POLYCARBONATE MOLD RELEASE developed?

POLYCARBONATE MOLD RELEASE was developed to give you the best mold release without breaking down polycarbonates or other highly sensitive plastics. This non-toxic product is the ideal choice for polycarbonate resins that will be painted, hot stamped or metalized.

DESCRIPTION:

Polycarbonate Mold Release is designed to withstand temperatures ranging from 100°F to 600°F while maintaining an excellent release. Polycarbonate Mold Release works efficiently on both hot and cold molds. It is free from chlorinated solvents and has no organic chemicals.

PERFORMANCE CHARACTERISTICS:

- Semi-dry
- Does not contain any chlorinated solvents
- Textile grade
- Safe on all plastics
- Will not attack plastics
- Fogging spray tip for an even application
- Film will not transfer onto parts
- Lasting residual

REMOVAL SPECIFICATIONS:

If build-up occurs, flush with DAC-103 Universal All Purpose Degreaser.
