

DAC-50512

Heavy Duty Lecithin Mold Release

Why was HEAVY DUTY LECITHIN MOLD RELEASE developed?

DAC's Heavy Duty Lecithin Mold Release was developed to give you an FDA and USDA approved mold release that will not require frequent spraying.

DESCRIPTION:

Heavy Duty Lecithin Mold Release was formulated to give a higher level of film strength by using fluorocarbons and lecithin combined to eliminate the vacuum hydraulic effect which causes releasing problems. It works efficiently on hot and cold molds. It is CFC free and free of chlorinated solvents. Heavy Duty Lecithin Mold Release has no volatile organic chemicals (VOC's). It imparts a smooth, dry film, which is biodegradable and non-toxic. It is FDA and USDA approved. It can be used where parts will be painted, hot stamped, metalized or otherwise decorated.

PERFORMANCE CHARACTERISTICS:

- Reduces surface friction
- Excellent for secondary operations
- Eliminates hydraulic effect and releasing problems
- Higher film strength with combined fluorocarbons and lecithin
- Free of chlorinated solvents
- More cycles per spray
- Safe on all plastics

REMOVAL SPECIFICATIONS:

If build-up occurs, flush with DAC-103 Universal All Purpose Degreaser.

NPCA Hazardous Materials ID System

Health	1
Flammability	4
